Cyber security: Protecting Digital Assets in a Connected World

We are pleased to announce a session **Cyber security Awareness**, focused on the importance of safeguarding digital assets, understanding common cyber threats, and best practices for maintaining online security.

Event Details:
Date: 19th December 2024.
Venue: College Auditorium.
Time: 12:00 pm onwards

Agenda:
- Introduction to Cyber security and its importance.
- Types of cyber threats: Malware, Phishing, Ransom ware, etc.
- Gain practical knowledge of key cyber security frameworks, tools, and best practices for securing systems, networks, and data.

We encourage all participants to come prepared with questions and ideas for discussion

For any queries and further details, please contact
Er. Jaya Gangwani (Activity co-ordinator)- 9928969045.

We look forward to your participation.
